ENTERPRISE SALES ANALYTICS

Click for Dataset

Tools Used: MySQL, MS Excel, PowerBI

Language: SQL

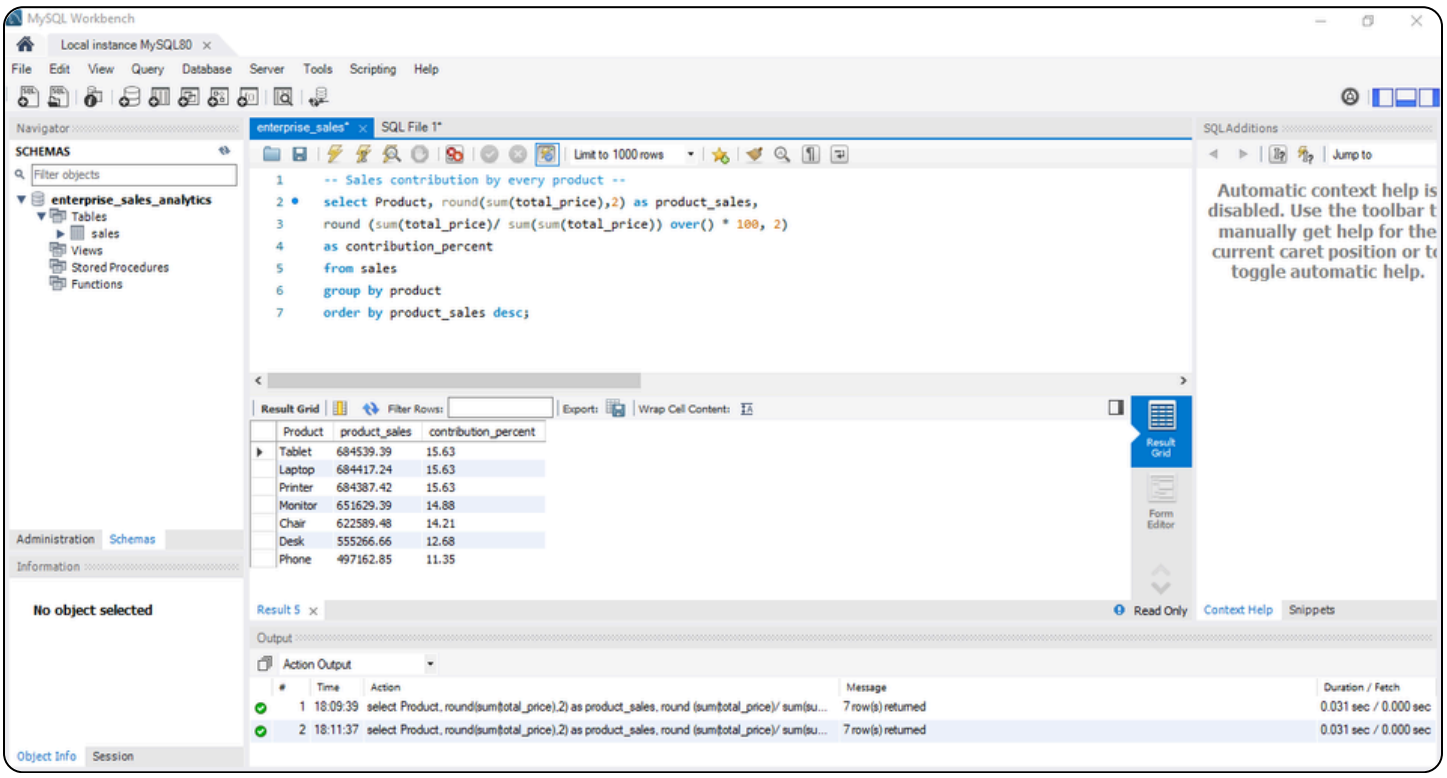
Github Repository: Enterprise Sales Analytics

Objective: Analyze sales performance, revenue trends and business insights.

Sales Contribution by Product

Objective: Calculate total revenue and percentage contribution of each product.

Result:



Output:

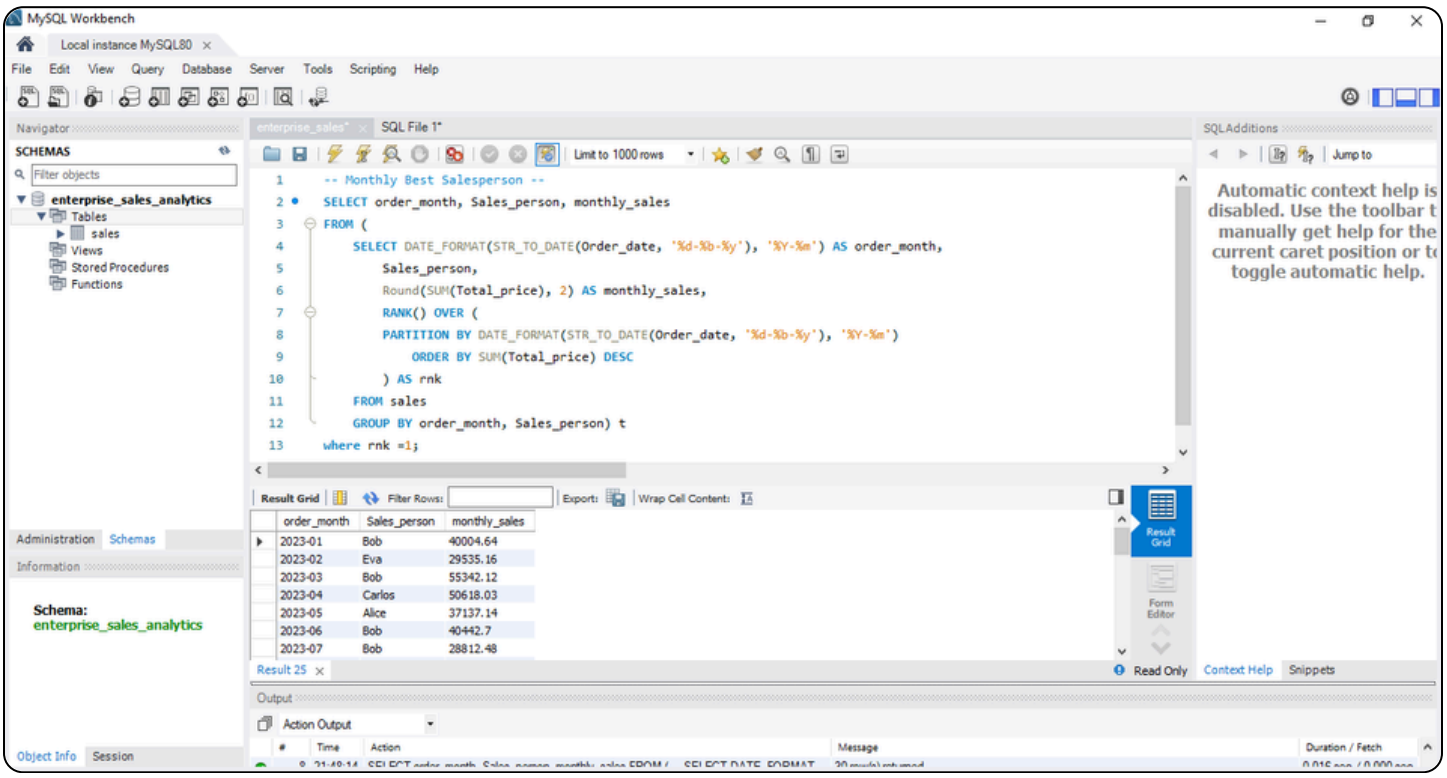
- product_sales → Total revenue per product
- contribution_percent → Share of total revenue

Insights: Identifies top revenue-generating products for business prioritization.

Monthly Best Salesperson

Objective: Identify the top-performing salesperson for each month based on total revenue.

Result:



Output:

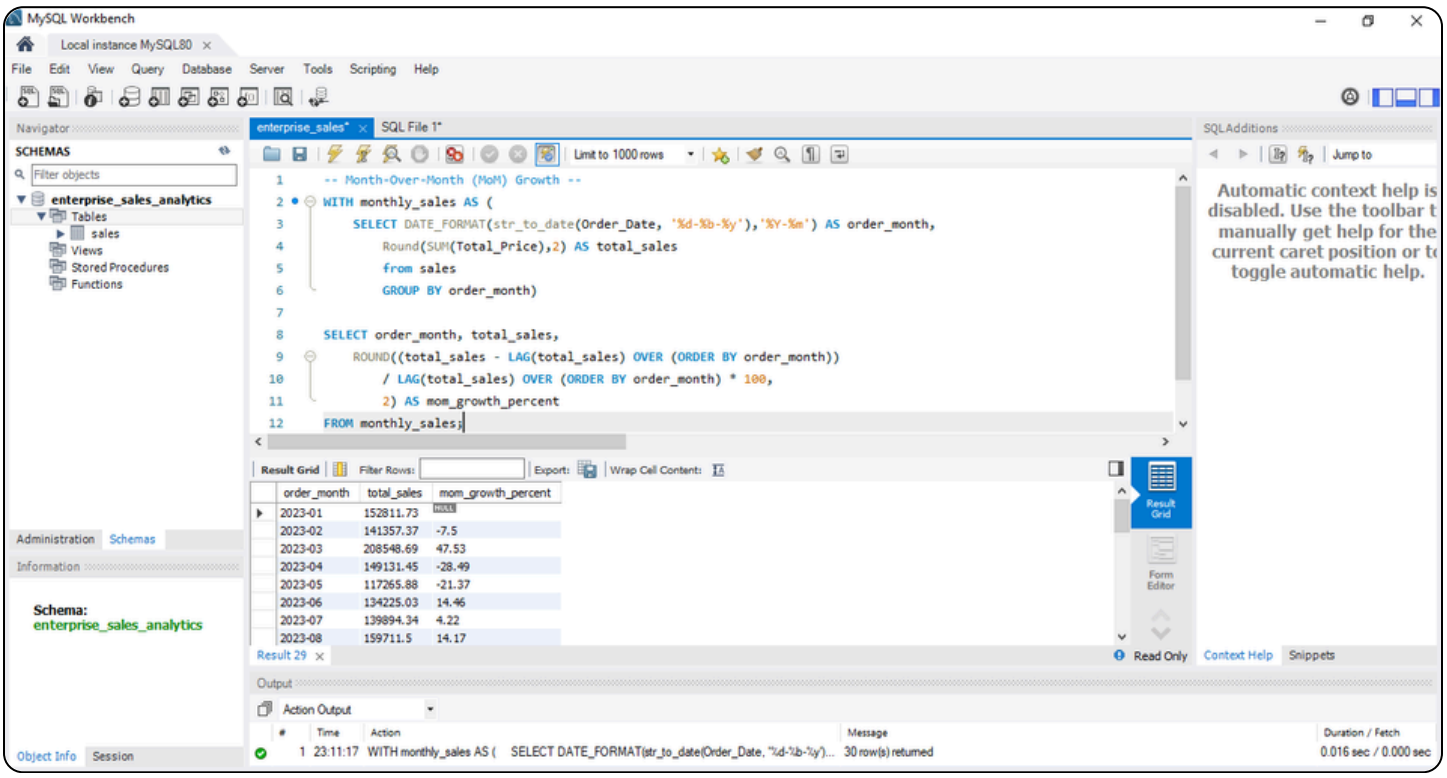
- order_month → Month
- Sales_person → Top performer
- monthly_sales → Total sales for the month

Insights: Highlights the best-performing salesperson each month.

Month-Over-Month (MoM) Growth

Objective: Measure monthly revenue growth trend.

Result:



Output:

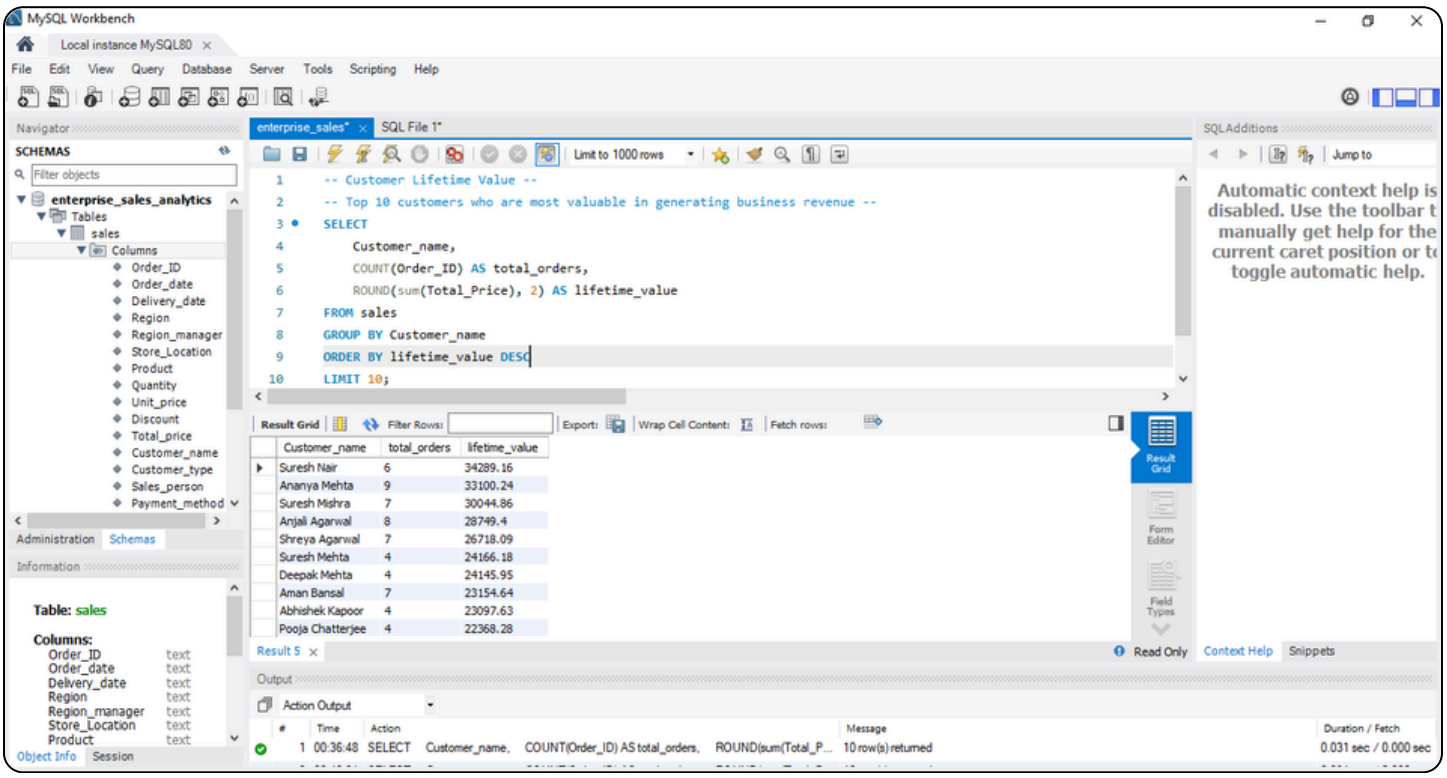
- order_month → Month
- total_sales → Monthly revenue
- MoM_growth_percent → Growth rate vs previous month

Insights: Tracks revenue growth and identifies business trends.

Customer Lifetime Value (CLV)

Objective: Calculate total revenue generated by each customer.

Result:



Output:

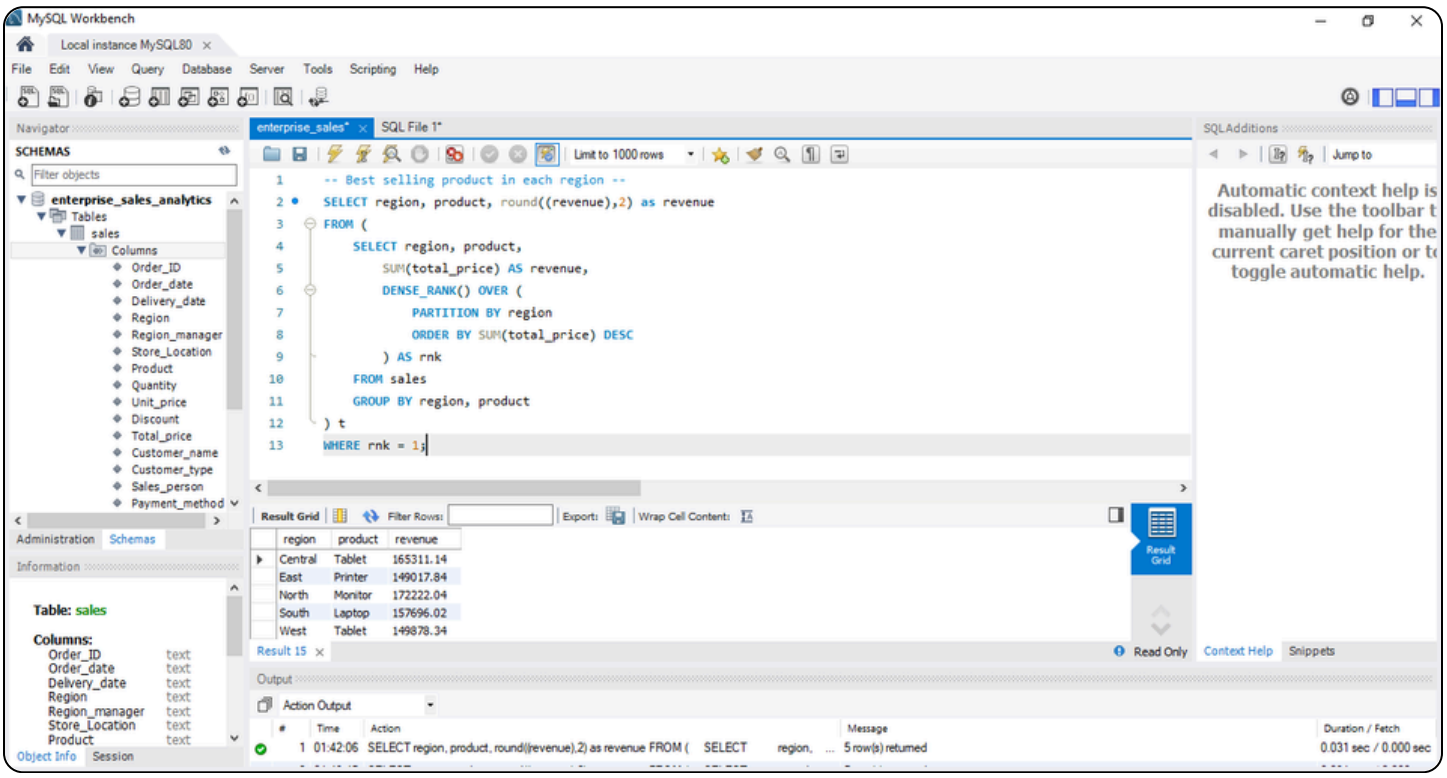
- Customer_name → Customer
- total_orders → Number of orders
- lifetime_value → Total revenue generated

Insights: Identifies high-value customers for retention and targeting.

Best Selling Product in Each Region

Objective: Identify the highest-revenue product in each region.

Result:



Output:

- region → Region
- product → Best-selling product
- revenue → Total revenue

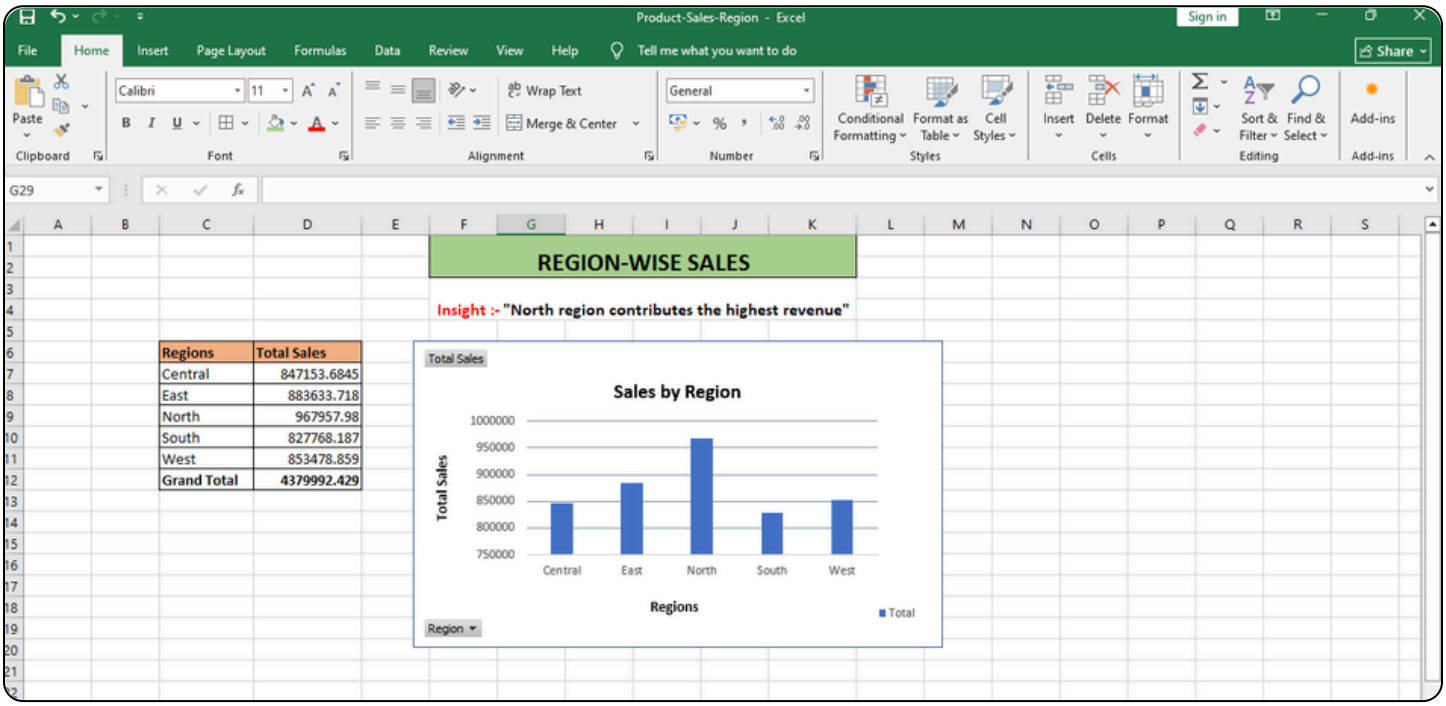
Insights: Identifies top product in each region for regional optimization.

Sales by Region Analysis

Objective: Compare total sales across regions.

Method: Aggregated regional sales and visualized using Excel chart.

Result:



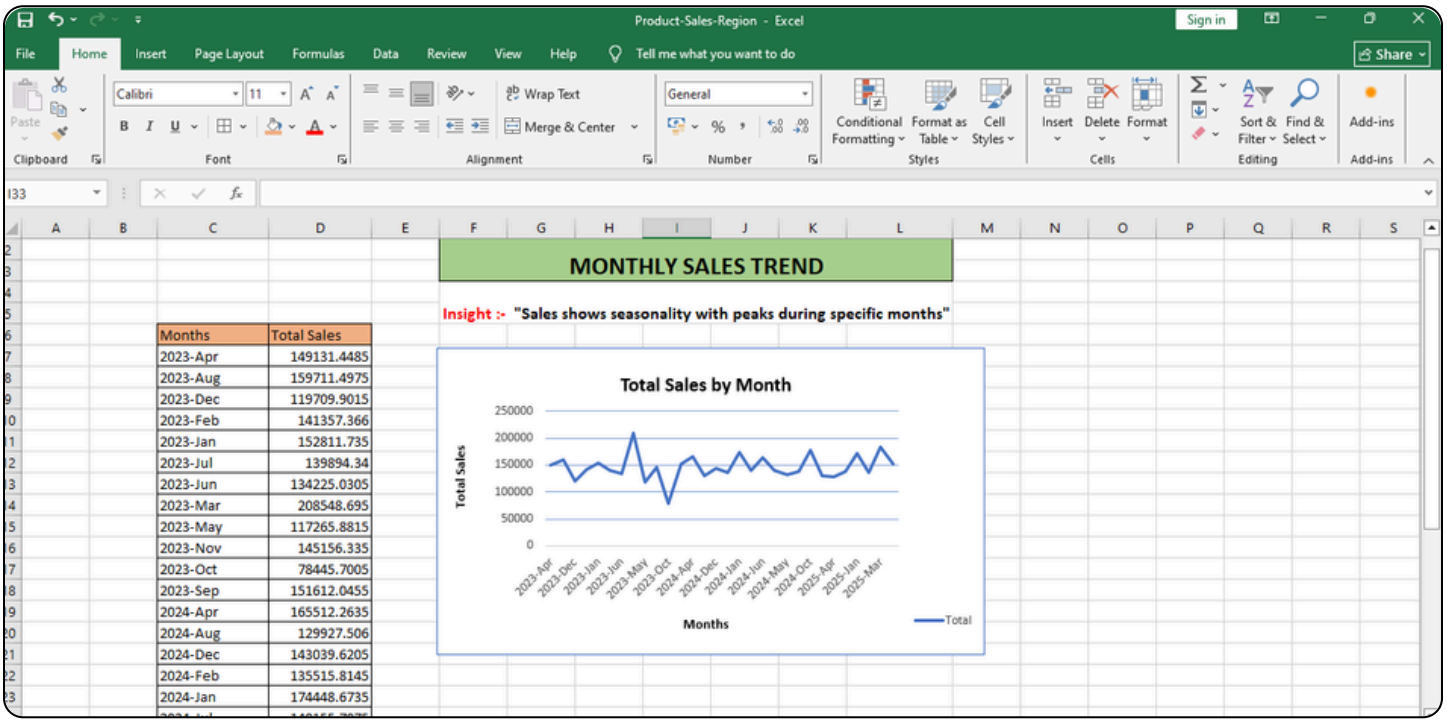
Insights: North region is the top revenue contributor, indicating strongest market performance.

Monthly Sales Trend Analysis

Objective: Analyze monthly sales trend and seasonality.

Method: Aggregated monthly sales and visualized trend using Excel.

Result:



Months	Total Sales
2023-Apr	149131.4485
2023-Aug	159711.4975
2023-Dec	119709.9015
2023-Feb	141357.366
2023-Jan	152811.735
2023-Jul	139894.34
2023-Jun	134225.0305
2023-Mar	208548.695
2023-May	117265.8815
2023-Nov	145156.335
2023-Oct	78445.7005
2023-Sep	151612.0455
2024-Apr	165512.2635
2024-Aug	129927.506
2024-Dec	143039.6205
2024-Feb	135515.8145
2024-Jan	174448.6735

Insights: Sales show seasonal fluctuations with peak months indicating higher demand.
